

Human Trafficking: Help Don't Hinder

Fraser Health's Forensic Nursing Service created a one hour online learning module for Fraser Health emergency health care providers titled, **Human Trafficking: Help Don't Hinder**. This training is the first of its kind in Canada.

This module explains human trafficking and provides examples of how trafficked persons may present in our health care settings. It offers tools to assist health care providers with identifying and responding to patients who may be demonstrating red flags for trafficking and exploitation.

The **Human Trafficking: Help Don't Hinder** learning module is available to **anyone** through the Fraser Health Forensic Nursing Service website at www.fraserhealth.ca/forensicnursing (health care providers are encouraged to log in to their Learning Hub account to receive learning credit).

Contact information:

Human Trafficking Team – Forensic Nursing Service

Surrey Memorial Hospital, Emergency Department

13750 96 Avenue Surrey BC V3V 1Z2

Office Phone: 604-953-4723

Office Fax: 604-953-4724

Email: ForensicNursingService@fraserhealth.ca

Visit: www.fraserhealth.ca/forensicnursing

Human trafficking is a health care issue.
Let's treat it that way.

You can help.
Because you care
