

INTEGRATION OF CWL AUTHENTICATION SYSTEM WITH ONE45

We are pleased to announce a significant enhancement to our One45 system that will improve security and streamline your access experience. As part of our ongoing commitment to information security and compliance, we will be integrating the UBC Campus-Wide Login (CWL) authentication system into One45.

BACKGROUND

Our One45 system does not meet the latest UBC information security standards. To address this, we are replacing the traditional username and password methods for accessing One45 with UBC CWL.

WHO WILL BE AFFECTED?

- Faculty Accounts (UBC and Non-UBC)
- Resident Accounts (Included Fellows)
- Student Accounts (UBC only)
- Administrator Accounts (UBC and Non-UBC)

BENEFITS OF CWL INTEGRATION

This integration will significantly benefit all users by providing a more secure and efficient way to access the One45 platform with:

- **Simplified Access:** Easier login process with one set of credentials for multiple systems.
- **Enhanced Security:** Improved protection of data through multi-factor authentication.
- **Compliance:** Adherence to university security standards and regulations.
- **Improved Management:** Efficient management of user accounts and permissions.
- **Account Cleanup:** Elimination of outdated or inactive accounts, ensuring an up-to-date user database.

HOW WILL I BE IMPACTED?

For users who have a CWL account, your current One45 account will be migrated to your UBC CWL account. The impact on users with an existing CWL account will be minimal.

For **MDUP** administrative and technical staff who do not have a UBC ID that require access to the One45 system a CWL guest account will be required to gain access. Should this be required for an individual at your region please contact the appropriate person below for assistance.

- Island Medical Program – Waheeda Esmail
- Northern Medical Program – Twylla Hamelin
- Southern Medical Program – Lisa Wyness
- Vancouver Fraser Medical Program – Karen Waugh-Clark

For **PGME** users who do not have a UBC ID that requires access to the One45 system a CWL guest account will be required to gain access. Please contact fomeas.support@ubc.ca for assistance.

TIMELINES

- October 24th 2024: Migration of accounts
- November 19th 2024: Testing
- December 9th, 2024: Go-Live

QUESTIONS OR SUPPORT

If you have any questions or need assistance, please do not hesitate to contact our system support analyst at fomeas.support@ubc.ca. We thank you for your cooperation and understanding as we make these important improvements.
